### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **In the Claims:**

Claim 20 has been canceled.

Claim 21. (Amended) Apparatus comprising:

a rest member having a support surface; and

a stand for said rest member;

said rest member having apertures therein to permit the adjustment in height thereof with respect to said stand; and

said stand having means thereon for inhibiting any tendency for the stand to become separated from said rest member during usage thereof

wherein the inhibiting means comprises an elastomeric object taking the form of a rubber [rings] ring.

Art Unit: 3636

Claim 22. (Amended) The method of supporting an object comprising the steps of:

- (a) providing a rest member having a support surface;
- (b) forming a plurality of differently dimensioned constructs in said support surface; and
- (c) positioning said rest member on a stand therefor to permit the adjustment in height of said rest member with respect to said constructs
- (d) further including the step of providing said rest member with a plurality of elongated apertures of different lengths into [with] which said stand is inserted into two of said apertures and inhibited from separation therefrom by an inhibiting means.

**In the Drawings:**

The following changes to the drawings should be submitted to the Patent Office: Applicant needs to submit formal drawings since the drawings filed on 1/26/2004 have a great deal of hand-drawn parts and reference numbers that include a lot of rough and crooked lines as well as what appear to be mistakes. Applicant should submit formal drawings like those that were submitted for Patent Application Serial No. 10/228,386, now U.S. Patent No. 6,682,147. In order to avoid abandonment of the application, applicant must make the above drawing changes.

### Remarks

The Examiner's Amendment was done to correct grammatical, typographical, and punctuation errors. The corrections that needed to be done are evident from the above Amendment. Also, Applicant retained Claim 19 but immediately after that, he cancels Claim 19. It appears Applicant intended to cancel Claim 20. The purpose of canceling Claim 20 in the Above Examiner's Amendment was to avoid any confusion when the patent is actually transcribed and to ensure that Claim 19 remained in the application and Claim 20 is canceled.

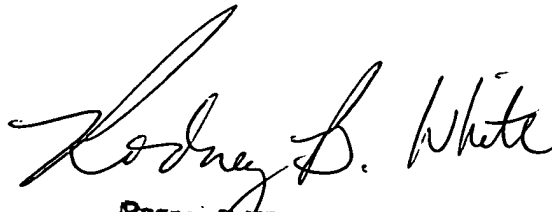

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney B. White whose telephone number is (703) 308-2276. The examiner can normally be reached on 5:30 AM-3:00PM.
